

Findings:

- 1) Category: Most of the places have “Japanese”, “Sushi” or “Bar” in their category
- 2) Location: Even though Nevada has so many cities, “Las Vegas” is highly rated one. In the more frequent items of size 3, all the businesses are located in Las Vegas.
- 3) Scale: In the more frequent items of size 3, almost none the of the places have “upscale” attribute as true. This makes sense in a real world scenario as a cheaper place would attract higher crowd, leading to more reviews.
